

FUEL PURIFIER 800-F

PRODUCT NUMBER:

FP 800-F

PRODUCT DESCRIPTION:

The RCI Technologies patented fuel purifier is a one-step unit that removes up to 99.8% of free water and up to 95% of other heavy contaminants that are found in diesel fuel. Even today's "clean" diesel fuel will easily become contaminated during transportation and storage. Unlike all other products on the market, the RCI Technologies fuel purifier performs this function without the use of a replaceable, changeable, or cleanable filter element, cartridge, or bowl. By removing contamination immediately before the fuel enters the engine's filter system, the purifier delivers cleaner fuel, (virtually eliminating filter clogging) and therefore greatly extending maintenance intervals.

The FP 800-F is designed with flanges for use on stationary pumps and marine equipment.

PRODUCT FEATURES:

Product	Universal Fuel Purifier
Model	FP 800-Flanged
Nominal Flow	15 GPM (56.8 L/min)
In & Out Couplings	2" Flanged 150psi
Top Port	1/2" NPT
Sensor Port	1/2" – 20 Straight Thread
Ground Port	1/2" NPT
Drain Port	1/2" NPT
Drain Valve	1/2" M-F brass valve
Height	16" (406.4 mm)
Width	4 1/2" (114.3 mm) / 9" (incl. flanges)
Gross Weight	19 lbs. (incl. mfg. hardware)
Sump Capacity	40 oz.
Finish	Polyester black powder coat – 35 to 40 gloss
Options	Water Sensor Kit Heater Element
